EXPERIENCE

Police360 System (MERN Stack)

- Led a 5-member team to build Police360 Criminal & Accident Management System
- Implemented anonymous crime reporting with media upload support
- Designed role-based authentication for officers and administrators
- Developed RESTful APIs and integrated MongoDB database
- Managed Git workflows and conducted weekly sprint demos

SLIITIZEN System (MERN Stack)

- Led a 5-member team to build SLIITIZEN, a full-stack app with React, Vite, Node.js, Express, and MongoDB
- Added anonymous incident reporting with media upload support
- Built JWT-based role authentication and protected Admin/Lecturer/Student access
- Created RESTful APIs and MongoDB/Mongoose integration
- Managed Git workflows and delivered weekly sprint demos

CampusFlow System (Spring Boot)

- Built a full-stack campus operations app for resource bookings, ticketing, and notifications
- Implemented role-based access with JWT + Google OAuth2
- Developed Spring Boot REST APIs with MongoDB
- Created a React frontend with Tailwind CSS
- Managed Git workflows and led regular sprint demos

DoDaily Apps(Android)

- Built an Android habit tracker with mood journaling and hydration reminders
- Added daily habit creation, editing, completion tracking, and progress summaries
- Implemented emoji-based mood entries and history views
- Added water goal settings and scheduled hydration notifications
- Used SharedPreferences with a custom DataManager for local storage

SUMMARY

Third-year BSc (Hons) Information Technology undergraduate specializing in Information Technology at SLIIT. Skilled in full-stack web development using the MERN stack, Spring boot, Java-based backend systems, and Android application development. Experienced in leading team-based academic projects, managing Git workflows, and delivering scalable, database-driven applications under tight deadlines. Strong problem-solving mindset with a passion for building secure and user-focused systems

SKILLS

Full-Stack Development

MERN Stack Java (JSP/Servlets)

PHP Frontend Development

JavaScript React.js HTML5

Backend Development Node.js

Express.js REST APIs

Database Design & Management

MongoDB MySQL

Mobile Application Development

Kotlin Android Studio

Version Control & Collaboration

Git GitHub Agile workflows

Software Engineering Principles

OOP MVC Architecture

Debugging Testing

EDUCATION

BSc (Hons) in Information Technology – Specializing in Information Technology

[Sri Lanka Institute of Information Technology \(SLIIT\)](#)

📅 10/2023 - Present 📍 Malabe

GCE A/L – Engineering Technology Stream

[Wavita Maithree National College](#)

📍 Bandaragama

- All subjects passed

EXTRACURRICULAR

- School Prefect (2016–2018)

LANGUAGES

Sinhala

Native

English

Professional

Working

Proficiency

KEY ACHIEVEMENTS

Led a 5-member development team in a large-scale MERN project

Successfully delivered 100% sprint tasks within academic timelines

Managed Git repositories and resolved integration conflicts effectively

INTERESTS

Web and Game Development

Unity & Unreal Engine

3D Design
